

Northern California Tour

October 11-13, 2017

FIELD TRIP

Presented by

WATER EDUCATION
FOUNDATION

The Sacramento River and its tributaries supply 35 percent of California's water. This three-day, two-night tour travels the length of the Sacramento Valley to teach about flood management, groundwater management, agriculture, salmon restoration and more. This year, special attention will be paid to the flood event at Oroville Dam and the efforts to repair the dam's damaged spillway. It also includes a Shasta Dam tour and a houseboat cruise on Lake Shasta.

The tour is cosponsored by the Bureau of Reclamation, Mid-Pacific Region and the California Department of Water Resources. Additional tour sponsors are CH2M, MWH - now part of Stantec, ESA, GEI and HDR.

On this action-packed tour, you will learn about:

- Spillway damage at Oroville Dam and repair efforts
- Flood management in the Sacramento Valley region
- State Water Project and Central Valley Project operations
- Farming in the Sacramento Valley
- Restoration of endangered Chinook salmon
- Groundwater, conjunctive use and the Sustainable Groundwater Management Act
- Water rights and transfers
- Agriculture/wildlife conservancies and wildlife refuges
- Development of surface water storage sites

Tentative stops include:

- Oroville Dam
- Rice fields and other agricultural operations
- Environmental restoration sites
- Flood control projects
- Feather River Fish Hatchery
- Shasta Dam
- Clear Creek Restoration Project
- The site of the proposed Sites Reservoir
